Semester	2567	

Abstract

The purpose of Herbal Mask Drops is 1) to research vocabulary about materials, equipment, and methods for making herbal mask drops. 2) to practice reading and interpreting skills from methods for making herbal mask drops. 3) To create a video clip on how to make herbal mask drops. The format of the study is in 2 steps: Step 1 is a research study using a search method from many sources, including asking knowledgeable people, the internet, and surveying real items and essential oil products for face masks found in the local area. Collect details and take notes. Step 2: Study and create a video clip of how to make herbal mask drops. Publish it to teachers and friends to ask for opinions. The results of the questionnaire were found to be interesting. From the study results, the organizers found that they had learned vocabulary about materials, equipment, and methods for making herbal mask drops, and developed reading and interpreting skills and the ability to speak and present methods for making herbal mask drops in English.
